**Windows Driver Installation**

Driver will automatically install on Windows 10 / 8.1 / 7
(Plug & Play requires internet access)

**Step 1.** Download the latest driver from [www.j5create.com](http://www.j5create.com) under Support & Services – scroll down to the product’s driver you are installing and download the latest driver for your operating system.
(Note: If possible run as an administrator)

**Step 2.** Follow the prompts to install the driver.
(You may have to click on My Computer > Downloads and choose j5UsbDisplayAdapter to begin installation).

**Step 3.** Once the driver has been installed choose "Yes" and click "Finish" to restart your computer and complete driver installation. Once your computer has restarted, connect the j5create USB Display Adapter to your display first and then to your computer. Now you are ready to use your j5create USB Display Adapter!

**Step 4. Display Settings**
Right click on the icon on the lower right-hand side of the toolbar to open display settings. If your driver automatically installed, you will see a different icon.

---

**Mac Driver Installation**

Do NOT plug the j5create USB display adapter into the computer until the driver is completely installed

Please download the file from [www.j5create.com/support.html#JUA214](http://www.j5create.com/support.html#JUA214)
[www.j5create.com/support.html#JUA254](http://www.j5create.com/support.html#JUA254)

**Step 1.** Download the latest driver from [www.j5create.com](http://www.j5create.com) under Support & Services – scroll down to the product’s driver you are installing and download the latest driver for your operating system. (Note: If possible run as an administrator)

**Step 2.** Choose the correct operating system for your system and follow the prompts to install the driver. (You may have to click on Finder > downloads and choose j5UsbDisplayAdapter to begin installation).
For v10.12 users: When the pop-up window appears click "Ok". Then go to Security and Privacy > General and click on "Open Anyway" to install the driver.

**Step 3.** Once initial installation has completed, click "Restart" to finish installing the software. After your computer has restarted, connect the j5create USB Display Adapter to your display first and then to your computer. Now you are ready to use your j5create USB Display Adapter!

**Step 4. Display Settings**
Go to ( ) and then System Preferences, choose the Display or Arrangement tab to adjust.
