**Windows Driver Installation**

Please follow the steps below to install your new wireless network card:

1. Insert the device driver CD into the CDROM drive on your computer, double-click the Setup.exe icon and run the Setup.exe program.

2. Select accept the terms of the license agreement and then click Next.

3. Select the setup type that best suits your needs, Install driver and J5create WLAN Utility is recommended.

4. Click Next, the Select Configuration Tool window will appear; you can manage this wireless adapter by either the J5create Configuration Tool or the Microsoft Zero Configuration Tool.

5. Click Next, the ready to install window will appear.

6. Click Install, and wait while the installation is in process.

7. Finally, click Finish to complete the driver installation.

---

**Connect to a Wireless Access Point**

1. After installation has finished, it will automatically try to connect to any unencrypted wireless access point. If you want to connect to a specific wireless access point, or the access point you want to connect to uses encryption, you have to configure the wireless network card and input the correct password to connect to the wireless access point. To do this, double-click the icon.

2. The following window will appear:

3. Click the icon to scan available wireless access points. Scan results will display in the Network zone. If you can’t find the access point you want to connect to, click the refresh button, until your wireless access point is displayed.

---

*Do Not* plug the Wireless 802 11n USB Adapter into the computer until the driver is completely installed.
STOP!!
If you have any problems with this product please contact our technical support team before returning it to the store.

TECHNICAL SUPPORT

4. Double-click the wireless access point's SSID you want to use. If the access points encrypted, you should follow the prompts to select the appropriate encryption type and enter your password.

5. If you have connected to the wireless access point successfully, you can get detailed information on the connected access point such as status, IP address, speed, etc. Click the icon, then the icon, here you will see the signal quality and signal strength information.

Limited Warranty
5create offers a Limited-Layer warranty. Users' wear & tear damage is not included. The user shall contact 5create's customer service with information regarding the defect(s) of the product and obtain a return authorization number. Users are responsible for one way return freight cost and we will take care of one way freight back. In order to obtain a return authorization number, users should have the following information handy when calling or emailing the service team:
(1) a copy of the original purchase invoice to verify warranty;
(2) a product serial number;
(3) a description of the problem;
(4) customer's name, address, and telephone number;
(5) 5create does not warrant that the operation of the product will be uninterrupted or error-free. 5create is not responsible for damage arising from failure to follow instructions relating to the products use. This warranty does not apply to the following:
(a) consume parts, unless damage has occurred due to a defect in material or workmanship; (b) cosmetic damage, including but not limited to scratches, dents, and broken plastic or ports; (c) damage caused by use with non-5create's products; (d) damage caused by natural disasters (e.g. flood, fire, earthquake, lightning strike, typhoon, war); (e) damage caused by human misuse (e.g. accident, abuse, misuse or other external causes); (f) damage caused by operating the product outside the permitted or intended uses as created by 5create; (g) damage caused by service (including upgrades and expansion) performed by anyone who is not a representative of 5create or its Authorized Service Provider; (h) a product or part that has been modified to alter functionality or capability without the written permission of 5create; or (i) if any 5create serial number on the product has been removed or altered. In such a situation occurs, 5create will calculate the cost of materials and labor for your reference. This warranty is given by 5create in lieu of any other warranties expressed or implied.

Federal Communication Commission Interference Statement
This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:
(1) Reorient or relocate the receiving antenna.
(2) Increase the separation between the equipment and receiver.
(3) Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
(4) Consult the dealer or an experienced radio/TV technician for help.

This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions:
(a) This device may not cause harmful interference, and
(b) this device must accept any interference, including interference that may cause undesired operation.

This device and its antenna(s) must not be co-located or operating in conjunction with any other antenna or transmitter.

You are cautioned that any changes or modifications to this product not expressly approved by the manufacturer in writing could void your user's authority to operate the equipment and you may be subject to penalties imposed by the Federal Communications Commission.

FCC Radiation Exposure Statement
This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment.

This equipment should be installed and operated with a minimum distance of 20 cm between the radiator and your body.
