Setup

- Plug the power adapter into the receptor. Plug the other end into a wall outlet. For best results j5create strongly recommends you use the 5V power adapter included with your device.
- Plug the USB 3.0 Micro-B type connector into the back of the JUH377/JUH377C. Plug the USB type A (JUH377) or USB Type-C (JUH377C) connector into an available USB3.0 port on your computer.
- Your computer will automatically detect and install the driver for the JUH377/JUH377C. You may now connect your USB 2.0 and USB 3.0 enclosures to the JUH377/JUH377C.
 - When you connect a high power-consumption external HDD or USB device that requires bus power of more than 400mA, we recommend that you attach the AC/DC power adapter included with your device.
