

At j5create®, we create high-tech products that help improve the way we experience our everyday lives. We tackle issues that affect you daily and turn to technological innovation to find solutions. While we strive for innovation, we never compromise the quality in product design. Our products are all carefully engineered and designed with durable materials, while maintaining a compact and sleek design.

Today our products empower people from all over the world - from individuals and IT professionals to digital nomads and entrepreneurs - to utilize their computers to their fullest potential and to create an impactful experience. Looking ahead, we aim to elevate your computing experience to be more productive and more efficient.

# WE DEVELOP INNOVATE CREATE

j5create® is a team that has come together from a diverse set of backgrounds to make technologies more meaningful and inclusive. We design, build, sell and support innovation technology, and we find creative ways to apply new technologies to provide computing solutions.

## Passion With a Purpose

Whether our job is designing products or empowering people to leverage technology, we're united by one mission: to bring innovation and the latest technology to every user in the world.

## Work With the Best

We only use premium quality materials and components to create our high-performance products. Additionally, we collaborate with vendors of the world's top PC manufacturers.

## Commitment to Quality

Vertical integration from IC design to production allows us to maintain a high level of quality control and quality assurance. We ensure that best practices are spread throughout the entire organization and build our growth through close partnerships and long-lasting relationships with our customers.

## Create Experiences

Driven by our passion for technology and our instinct for innovation, we design products to meet today's demands and develop solutions that have real significance to your world.
